STATE SAILING MEASURER'S REPORT

In the events this year I was unhappy with the number of boats competing that clearly did not comply with their class rules.

An Events Measurement Criteria has been drawn up to try to correct this problem. It will no doubt need some refining over time.

I only had a couple of questions regarding measurement during the year. These were answered with help of Robert Hayes and others. I repeat, the State Measurer's task is to help Measurers, so in doubt, please ask.

I await the accreditation system (supposedly) being drawn up by the ARYA. If done properly. Everyone involved in the sport will benefit.

Have a successful year.

Peter Humphreys
State Sailing Measurer
