2005-2006 QRYA PUBLICITY OFFICER'S REPORT

The QRYA website is hosted through the ARYA internet host at <http://www.radiosailing.org.au/qrya/qrya.htm> and remains extremely practical and functional, while the main portal for Regatta Results and Events for Queensland continues to be my personal web page at <http://www.rcyachts.net> with an average of fifty (50) hits per day and is now approaching a total of almost 130,000 visitors to-date from all around the world.

It was pleasing to receive this email from France recently;

[Abridged]

Subject: Australian IOM boat

Hello,

My name is Christophe LIMOUZIN and I am mailing from France.

I am interested to buy an IOM hull from Australia which is one of the most famous country for RC sailing.

First of all, great thanks for your wonderful website on which I spent hours and hours to learn about boats.

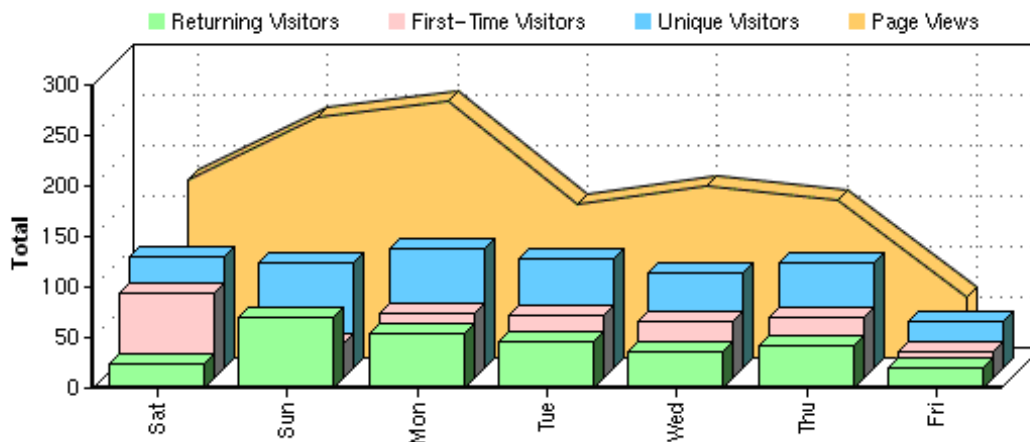

Many thanks for your support.

Christophe”

During the past twelve months, almost 105 items have been uploaded to the site although only representing some 2 new updates per week per the attached list;

Online Entries:

Those members who use the online entry forms to enter regattas are reminded to please check their "sent" box a few minutes after submitting their entry.

In most instances their entry should appear as a sent message if the form was processed successfully. While the Race Secretary should also acknowledge receipt of the entry, it is still the responsibility of the entrant to ensure that their details have been included on any online skipper list. If their details do not appear online within 24 hours I recommend either of the following;

1. To resend the entry by forwarding it from their sent box to the race secretary or
2. Send their name, address and at least three frequencies to the race secretary in a separate plain text email. The subject line should be the regatta they wish to enter.

While nearly all entries are received without any problems, there is however a small percentage that are affected by a configuration glitch which originates at the entrants computer and is beyond our control. Online entries are offered as a convenience only and automatic entry should not be assumed by members submitting their details online.

Results & Photos:

All clubs are most welcome to send photos and a short summary of their event. These help to complete the package and make the results table look a little more interesting to the public and for our members who could not attend. All clubs have at least one member who owns a digital camera these days so I look forward to your *happy snaps* and racing critiques to compliment the results. While I would like to take this opportunity to thank the many Clubs throughout the State and the Wellington Radio Yacht Club in New Zealand for supplying us with their results and photographs from events their events.

I would also like to thank Graeme Turk and David Black for their continuing support, Graeme is heavily relied upon for regular communication and can always be trusted upon for regular updates and especially for results from events he attends with photos from his wife Rosalie. Nick Lindsley and John McLachlan have also been a great help with photos locally from regattas where Bruce and I are unable to attend. Lastly I wish to thank Bruce for his support of the sport through photos and race reports, Bruce took in excess of four thousand (4000) photos during the past year.

Happy sailing!
Eduard Cowell
