

MEASUREMENT COORDINATOR REPORT 2008 - 2009

Not much to report from this year's sailing. Most club measurers have done the right thing and sent their reports in following regattas hosted by their clubs. One or two have needed to be reminded and one didn't bother at all despite reminders. I should remind measurers that it is your responsibility to ensure firstly that the check sheet be completed and secondly that it be forwarded to me as soon as practical after the regatta.

There were no queries (for all classes) during the year from measurers regarding technicalities associated with measurements.

Ian Ashe
State Measurement Coordinator.
