

Vice President's Report June 2010

The State Association is moving towards ensuring that its member clubs benefit from the funds that have gradually accumulated over the years. There is now realistic financial year recording that enables accurate income figures to be determined which in turn will guide the States expenditure.

We had very good representation at the ARYA AGM in Adelaide in February but still could not get a consensus from the States on our proposal of staggering the National Titles events. The ARYA increased their fees by the \$2 per member insurance cost increase.

The Qld Association has been very ably managed by President Ian Ashe and Secretary David Black further assisted by Jeff Byerley and Ron Hosking who have donated time and effort in furthering the sport of radio sailing in Queensland.

Good sailing

John McLachlan
Vice President QRYA Inc
