A fine & sunny day at Risdon Brook Park with gusty and shifting breezes to keep all the competitors on their toes, blowing at the top end of A rig for most of the day - A strong fleet of Marbleheads met the starter with Michael Hickmans newly aquired "AJAX" design from Sydney showing a lot of promise - George Fish with his new "Walicki Scalpel" (Ex Adna Hewson and Greg Willis boat) was quick out of the blocks - Peter Darcey and Lisa Blackwood had their new "Scourge Design" boats from Lincoln McDowell (A very fast boat, but Darc had trouble keeping his rig in place and Lisa had winch problems - Mat Gray also has a new Scourge Design, but his rigs did not arrive for this weekend - Rumour has it that this boat will be very fast !!!) Cassie Midgley sailing her Vibe and Ken Dobbie sailing his Scalpel had some good finishes and Les Hanson and Ron Webberley had some great tussles in their Holmes design boats- George Fish sailed well in the morning, to lead at the lunch break, Denis McLoughlin put some good results together in the middle of the day and Michael Hickman finished strongly to leave the final result very close, going into the final races. - A big thanks to Ron Hickman for PRO duties in the morning and Lisa Blackwood in the afternoon. It is good to see the Marblehead Class getting stronger and more competitive in Tassie
